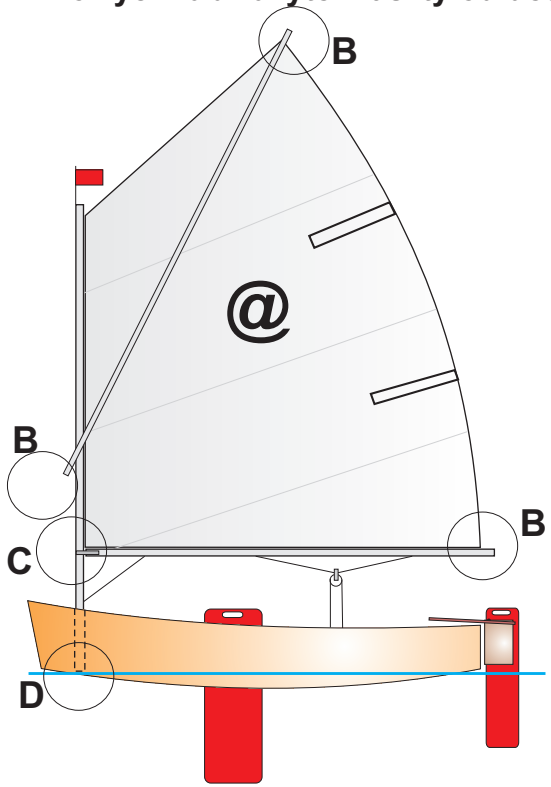
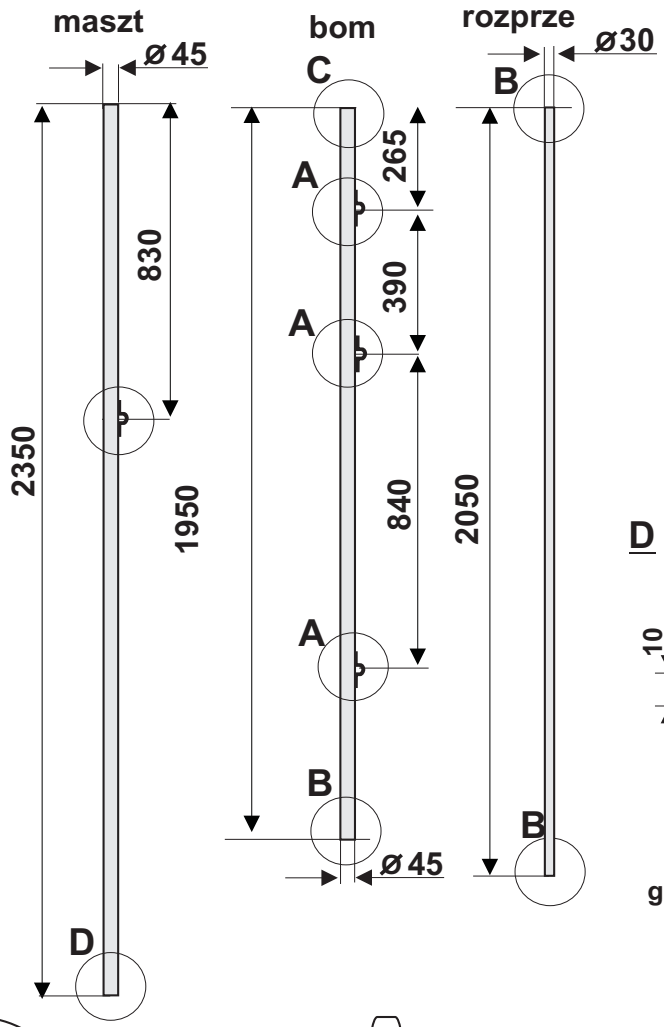
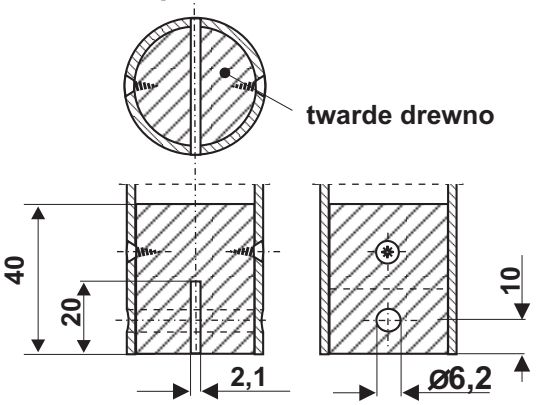
"Drzewca" wykonać z rur aluminiowych. Bardzo dobrym materiałem na drzewca jest bambus o średnicy jak dla rur aluminiowych lub zużyte maszty od desek.

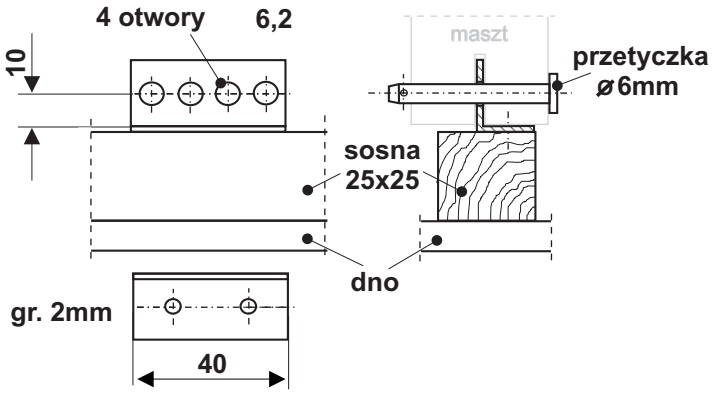




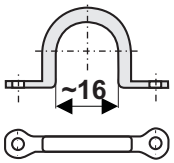
D stopa masztu



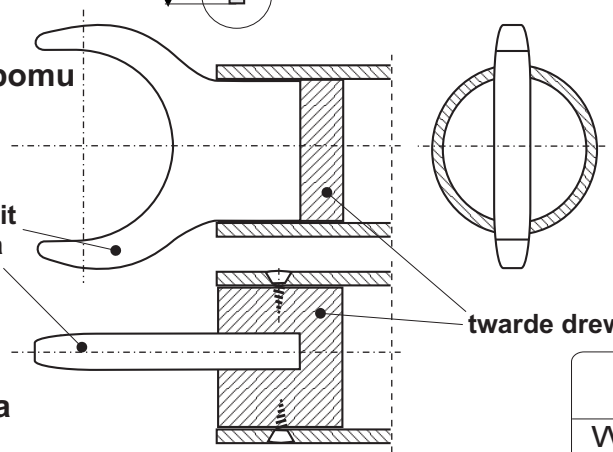
D mocowanie masztu do dna



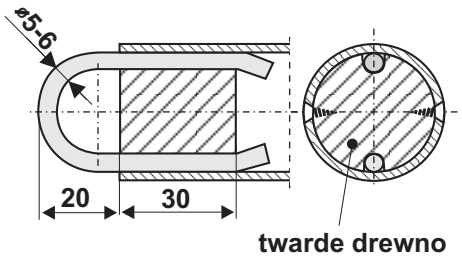
A przelotka kuta lub blaszana



C garda bomu



B zakończenie noków



01-07-2010	Wszystkie połączenia kleić i skręcać
Ostatnia zmiana	

"Perkoz" - "drzewca" -żagiel z Optymista
